

Telecom energy solutions

Huijue communications energy solutions can partially or completely replace conventional station diesel generators by utilizing renewable energy sources. The solution integrates power supply, battery, photovoltaic module, wind energy, oil engine, temperature control, fire protection, temperature and humidity sensor, intelligent lock and other components. Through the site control unit independently developed by our company, the overall energy and environment control of the communication site is realized. Huihuan Communication's energy solutions are characterized by simple operation and maintenance, energy saving and low-carbon, and rapid deployment. The solutions have been deployed and piloted by several operators in China, the Middle East and Southeast Asia.

SPECIFICATION

ITEM	SPECIFICATION	QTY	UNIT
OUTDOOR CABINET	<p>(1)Size: 2100H*900W*900D(including 150mm base); double-layer structure; 1.5mm galvanized out layer plate; PIR insulation material 20mm thickness; galvanized plate inner structure 2.0mm thickness galvanized base;</p> <p>(2)19" column*1 group+2 battery racks; Front door; Grounding copper bar*2;</p> <p>(3)Outdoor structure: protection grade IP55; Surface treatment: RAL7035 grey;</p> <p>(4)Including DC48V lighting system;</p>	1	PCS

	(5)Smart lock(remote unlocking,door opening alarm);
